

KAIQIN KONG

+1 (858) 214-8023 | k1kong@ucsd.edu | GitHub | LinkedIn

EDUCATION

University of California San Diego

Master of Science in Computer Science

La Jolla, CA

Sep 2025 – Jun 2027

Zhejiang University

Bachelor of Engineering in Industrial Design

Hangzhou, Zhejiang

Sep 2020 – Jun 2024

OPEN-SOURCE CONTRIBUTIONS

FastVideo Core Contributor

- Built end-to-end training recipes for world models, spanning bidirectional fine-tuning, diffusion-forcing and teacher-forcing SFT, and self-forcing DMD distillation.
- Built block-streaming inference for world models with stateful causal denoising, cached VAE decoding, and asynchronous multi-GPU execution.
- Added support for diverse world models and implemented new inference/training algorithms.

FastWan-QAD

- Enabled end-to-end generation of a **5-second 480p video in 1.8 seconds** on a single NVIDIA GeForce RTX 5090, a 94× speedup over the original Wan2.1, and released three NVFP4/FP8 checkpoints.
- Co-designed the two-stage quantization-aware distillation recipe, combining Attn-QAT fine-tuning with 3-step DMD, and trained the released Wan2.1-T2V-1.3B checkpoints.

Dreamverse

- Open-source, self-hostable workspace for real-time “vibe directing” of 30-second 1080p scenes, generating each 5-second video with audio in ~4.55 seconds on a single NVIDIA B200 GPU.
- Added end-to-end LoRA style controls across the backend API and React UI, and fixed LTX-2 audio–video desynchronization across multi-segment continuations.

EXPERIENCE

One Robot

Machine Learning Intern

San Francisco, CA

Jun 2026 – Present

- Train and evaluate world models on robot trajectory data.

Hao AI Lab, UC San Diego

Research Intern

La Jolla, CA

Nov 2025 – Present

- Contribute to FastVideo, mainly on world models.

International Design Institute, Zhejiang University

Research Intern

Hangzhou, Zhejiang

Jun 2024 – Jun 2025

- Developed AI workflow powered by RAG over an HCI paper database to generate designs and evaluations.
- LLM fine-tuning and data processing pipeline development.

Zhejiang University

Teaching Assistant / Computer Game Programming

Hangzhou, Zhejiang

Sep 2023 – Jan 2024

- Guided student from initial proposal to final implementation of game.
- Led weekly labs and graded assignments for students.

RESEARCH

HeroWorld: Long-Horizon Action-Conditioned World Models for Third-Person Games

Mingjia Huo, **Kaiqin Kong**, Minshen Zhang, Shaoxiong Duan, Junda Su, Will Lin, and Hao Zhang

ICML 2026 F2S Workshop
